2. Director/Principal of AICTE approved Institutes

Subject: Implementation of Anti-Plagiarism Detection software in the Universities/Institutions - regarding.

Sir,

Ministry of Human Resource Development, Govt. of India is keen to enhance the quality of research in Indian Universities/Institutions and prevent the plagiarism in research/academic publications. In this regard, MHRD has entrusted "Information and library Network Centre (An Autonomous Inter University Centre of University Grants Commission) Gandhinagar, Gujarat" to provide the Plagiarism Detection Software (PDS), to all the Universities/Institutions including private Universities through centrally funded scheme. Accordingly, INFLIBNET Centre has subscribed the PDS (URKUND by M/s. Prioinfocenter, Sweden) through global tender process. As per the plan, the trial access of PDS to all the Universities/Institutions will start from 1st August, 2019 for one month and final subscription to the access of PDS for all Universities/Institutions will start from 1st September, 2019.

The INFLIBNET Centre is in the process of implementation of PDS in all the Universities/Institutions. It is therefore requested to kindly direct the institutes under your administrative control to nominate the Institute Coordinator and instruct him/her to immediately contact the INFLEBNET Centre at pds.help@inflibnet.ac.in and provide the details regarding number of faculty members, number of registered research scholars. Contact details of Institute Coordinator may kindly be given to INFLIBNET so that admin account for Institute can be created. For further details Sh. Manoj Kumar K, Scientist D (CS) may be contacted at manoj@inflibnet.ac.in or pds.tech@inflibnet.ac.in.

It is also informed in this context that as per provisions contained in APH 7.14, each AICTE approved Institution should have a Plagiarism Software to check the integrity of the work of the students and Faculty by ensuring that all content is unique. Therefore, all AICTE approved Institutes are requested to implement Anti-Plagiarism Detection software in the Universities/Institutions.
