

AICTE Approved Institutions as Temporary Isolation Centres to Combat COVID-19

As we are all aware of the severe situation through which the entire globe is going through and Hon'ble Prime Minister has announced 21-day total national lockdown to avoid further spread of corona pandemics. We all need to support this move by being at home and arrest this totally. But despite all this, should there be a large number of new COVID-19 cases detected, the patients need to be treated in hospitals. Several suspected cases need to be quarantined. Hence this is an appeal to you to provide the classrooms of your colleges for providing safe temporary isolation centres to these people and those who are finally detected only need to be shifted to hospitals, and rest sent home. **Remember the colleges will be taken for this purpose ONLY if needed depending upon the situation.**

In view of the foregoing, Please give your concurrence (willingness) and direct the concerned staff to provide some information through online google form available
