The Council recognised this situation as a Chance to convert **"Challenges into Opportunities"** and want you to be fully aware that it is committed to facilitate and navigate through these challenges and progress in all endeavours. As you are aware, that *"In view of the National Perspective Plan, the existing Institutions applying for New Programme/ Level/ Increase in Intake/ Additional Course(s) in Engineering and Technology shall be permitted ONLY in EMERGING AREAS"*. As you are aware, that *"In view of the National Perspective Plan"*, the existing Institutions applying for the New Programme/ Level/ Increase in Intake/ Additional Course(s) in Engineering and Technology shall be permitted ONLY in EMERGING AREAS". It is seen that during the Approval Process 2020-21, many institutions have made use of this opportunity for introduction of new courses in the emerging disciplines approved by the council. We all understand that the introduction of more number of new courses in emerging areas or Interdisciplinary Courses would help the student community in their goal of employability or entrepreneurship and this is also stated in the new National Education Policy 2020. Hence you are hereby requested to furnish the list of any such already approved new courses, if any, by your Governing Body/ Academic Council / Board of Studies along with detailed curriculum to AICTE ONLY through an email to [approvalprocess2122@aicte-india.org](mailto:approvalprocess2122@aicte-india.org) with details such as detailed syllabus, resolution, etc. to consider such courses to be included in the AICTE Approval Process Handbook 2021-22 Courses' nomenclature (after going through formal procedure).

Please note that the details along with formal request letter (Only through e-mail to the above mentioned address) should reach AICTE **latest by 15-11-2020**.
